A plug and play hot tub is a great way to relax in comfortable hot water and provides the easiest solution for backyard installations. The Simcoe plug and play hot tub model is the right size for most families and offers a lounge and multi-level seating for you and up to 4 other guests. Advanced electronics make it easy to operate, and the entire cavity is polyurethane spray foamed for added insulation. The plug and play hot tub comes with a cord and GFCI plug eliminating the need to have a dedicated circuit installed from the electrical panel. Place the hot tub on your deck, fill it with water, plug it in and voila!

SEATING CAPACITY
- 4 x Comfortable Seating
- 6 x Maximum Seating
- 1 x Lounge
